PROTECT YOUR BUILDINGS Which may be done with one-fourth the usual expense, by using our

PATENT SLATE PAINT,

MIXED READY FOR USE. Fire-proof, Water-proof, Durable, Economical and Ornamental.

A roof may be covered with a very cheap shingle, and by application of this slate be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better, and lasting longer than the new shingles without the s'ate, for

One-third the Cost of Reshingling. The expense of slating new shingles is only about the cost of simply laying them. The paint is rins-rhoov sagainst sparks or flying em-bers, as may easily be tested by any one.

IT STOPS EVERY LEAK. And for tin criron has no equal, as it expands by heat, contracts by cold, and NEVER CHACKS nor scales. Roofs covered with Tar Sheating Felt can be made water-tight at a small ex-pense, and preserved for many years. This Slate Paint is

EXTREMELY CHEAP.

Two gallons will cover a hundred square feet of shingle roof, while on tin, iron, felt, matched boards, or any smooth surface, from two quarts to one gallon are required to 100 square feet of surface, and although the Paint has a heavy body it is easily applied with a brush.

No Tar is use in this Composition,

Therefore it neither cracks in Winter, nor run in Summer.

On decayed shingles it fills up the holes and pores, and gives a new substantial roof that will last for years. CURLED or WARFED shingles it brings to their places, and keeps them there, it fills up all holes in Felt roofs, stops the lasks—and although a slow dryer, rain does not affect it a few hours after applying. As nearly all paints that are black contain TAB, be sure you obtain our GERUINE article, which (for shingle roofs) is

CHOCOLATE COLOR, When first applied, changing in about a month to a uniform slate color, and is to all intents and purposes slatz. On

Our red color is usually preferred, as one coat is equal to five of any ordinary paint. For BRICK WALLS
